CONFERENCE HELD AT THE UNIVERSITY OF KRASNODAR IN HONOUR OF PROF. DR. ANATOLY I. BULATOV

Greetings to the committee and the participants of the conference in hounor of my esteemed friend and brother Anatoly Ivanovich.

Dear President of the conference, Ladies and Gentelemen and especially Dear Students.

Almost thirty years ago when I got to know Anatoly Ivanovich I learned to appreciate his humanistic education and world view beside his technical skills.

Despite his difficult youth he had not lost a positive attitude towards life, he loved to share his experience and expertise especially with the young generation.

Being not only an excellent teacher he was also a learner with great self discipline all his life long. I can confirm this having spent many days and nights in his office, his home and travelling with him in many countries.

It is necessary to get to the bottom of the driving forces, was his attitude.

Beside many other things Anatoly Ivanovich occupied lately himself a lot with the final things, the search of the meaning and the goal of the life. Now maybe he has the possibility to know them.

I wish your conference in honour of Professor Dr. Anatoly I. Bulatov success. The City and the Region of Krasnodar can be proud of him.
